

# PressureGuard® APM<sup>2</sup>

**Category:** Alternating Pressure with Basic Lateral Rotation

## Alternating Pressure or Lateral Rotation – at the Flip of a Switch!

With its two distinct therapy modes, the PressureGuard APM<sup>2</sup> gives you twice the treatment options. Twice the flexibility. Twice the value.

Change instantly and easily from alternating pressure to basic lateral rotation with a single, recessed toggle switch. Requires no disconnecting or exchanging of air lines.

Deluxe control unit includes low pressure indicator light, giving users at-a-glance assurance of proper function. This silent, reliable, maintenance-free control unit allows simple adjustment for user comfort. The user experiences subtle but effective alternating pressure or lateral rotation in ten-minute cycles. These dual therapies combine with the patented PressureGuard air/foam design to deliver outstanding tissue load management in any care setting.

### QUICK FACTS

#### PressureGuard® APM<sup>2</sup>

##### Primary Use:

- Aggressive Treatment (through Stage IV)

##### Patient Indications:

- Can't or won't reposition frequently
- Can be positioned off of ulcer in at least 2 positions
- Prevention for those at high risk for skin breakdown (e.g. Braden score 12 or less)

##### Key Advantages:

- Two therapies in one mattress
- Single switch operation
- PressureGuard® design: stability, safety, anti-shearing

##### Deluxe control unit

- Low pressure indicator light
- Selectable audible alarm
- Torque-free ports
- Hospital-grade plug
- Heavy-duty hooks
