

# NEW! PressureGuard Easy Air® LR

**Category:** Low Air Loss with Alternating Pressure and Lateral Rotation

## Unmatched Moisture Control— Now With Lateral Rotation.

The new, all-in-one Easy Air LR model puts caregiver just a button-push away from a powerful, additional treatment modality: Continuous Lateral Rotation Therapy (CLRT). The unique PressureGuard approach to CLRT has been documented to help wounds close more than three times faster than on other commonly provided air therapy surfaces<sup>1</sup>. But beyond pure pressure management, CLRT gives caregivers a versatile tool that is indicated for a wide variety of user needs.
